

The Cal Tjader Project

The Cal Tjader Project

A collaboration between Vibraphonist Paul Sawtell and Flutist Casey Greene has created a fresh and exciting tribute to the music of the late Cal Tjader, who was one of the pioneers of Latin Jazz in California in the 1950s. There is no other band in the UK that is playing this wonderful music with such a high standard of musicianship. This band is available for bookings and would add an element of excitement and variety to your Festival Program or your Jazz Clubs Calendar.
